

The Mobile Classroom

The Mobile Classroom provides a learning environment on the move. This is the 20 foot model. It seats 18 students comfortably, and can seat 23 in a pinch. The Mobile Classroom has fully functional plumbing for water and waste. It is wired for interior and exterior lighting and has AC outlets and USB charging outlets. Available options include (A) instant hot water package, (B) Heating and AC. (C) Exterior locking storage cabinet. Trailer has an electronic braking assist package with automatic breakaway detection. This automatically stops the trailer/tiny home if it should become detached from the tow vehicle while in motion.
