

The Batchelor's Pad is Tiny Living at its most basic. It has a small kitchen, a wet bath with toilet and shower, and a bed, all packed into a Tiny Home 8 1/2 by 12 feet long!

The kitchen features a sink, 2 or 3 burner cooktop, and a microwave oven. A 6 gallon propane water heater lives under the kitchen counter with the refrigerator.

There are cabinets over the bed and over the kitchen counter for on-board storage. The Batchlor's Pad can be towed by a standard F150!

The Batchelor's Pad can accommodate a single or full sized standard bed, with large storage drawers underneath.

It can also have a queen-sized Murphy bed that folds lengthwise against the wall, creating a large clear floor space.
